Public Comments:

George Burkey said, there's been a lot of mud on Route 271. When Neumyer Environmental was there they had a washer. Yesterday at 9 o'clock in the morning they dry swept the road and the dust was so thick you couldn't see through it like a thick fog. **Supervisor Dreikorn** said, not only that. . when it's wet it's slippery too. **Burkey** said, they had a street sweeper down there but they didn't put any water down. **Vice-Chairman Wallet** said, it's bad. **Chairman Baker** said, he just made it worse. **Burkey** said, they would have been better leaving it alone instead of blowing the dirt all over the houses. It's all over my house and my car. **Baker** said it's a combination between the pipeline company and power plant construction. They're both tracking mud and dirt out on to the road. We've been in touch with them this morning. **Wallet** said, they need to make a better effort. . .it's not good. We expect more out of them than that.
