New Business:

Matt Cramer (Cenker Engineer firm) is performing a Engineering Study on the tower at (Peoples Natural Gas) PNG - Rager Mountain. PNG is planning to install additional load on this tower. During the "Tower Load Study" it was determined that the foundations were improperly installed. One of the four foundation concrete anchors has had a very slight movement over the past 30 years. So, to be on the safe side, the plan is to replace the tower next year. There is no safety issue with this tower. It is inside the fence at Rager.

Old Business:

None

Adjournment:

Motion to adjourn at 6:54 PM. Motion by Al, seconded by Paul. All in favor, meeting adjourned.

Respectfully Submitted

Paul Wyrwas, Secretary
